THE URBAN DISTRICT COUNCIL OF LITHERLAND.

YEAR 1941.

Chairman of the Council:

COUNCILLOR F. OSBORNE, J.P.

Chairman of the Health Committee:

COUNCILLOR A. DICK.

Deputy Chairman of the Health Committee:

COUNCILLOR J. EATON.

Councillors:

J. W. ANDERSON.	W. GREGG,
P. T. CLUSKEY.	E. H. HEALD.
J. DALEY.	F. OSBORNE.
A. DICK.	J. L. PARRY.
J. EATON.	A. RIMMER.
W. WALL.	

Medical Officer of Health:

H. G. ST. M. REES,
M.B., B.Ch., B.Sc., M.R.C.S., L.R.C.P.,

Sanitary Inspector:

H. HARRISON, M.R.San.I., M.S.I.A.

Clerk to the Council:

ALEX. J. HARRINGTON.

THE URBAN DISTRICT COUNCIL OF LITHERLAND.

TOWN HALL,

LITHERLAND,

23rd November, 1942.

TO THE CHAIRMAN AND MEMBERS
OF THE HEALTH COMMITTEE.

GENTLEMEN,

I have pleasure in submitting the Annual Report upon the health and sanitary conditions of the District for the year ending 31st December, 1941. In accordance with the suggestions of the Ministry of Health, the Report is somewhat condensed and only essentially important information and statistics are given.

The health of the District has continued very good in spite of the abnormal conditions. In particular, there was a marked decrease in notifiable infectious disease.

During the year the District suffered, in common with all Merseyside, from intense air attacks. No substantial interruption of the regular health services was sustained.

I have to express my thanks to the Staff of the Department for their help and to the members of the Health Committee for their readiness to listen to any suggestions for the betterment of health facilities in the district.

Yours obediently,

H. G. ST. M. REES,

Medical Officer of Health.

PARTICULARS TO BE INCLUDED IN THE
ANNUAL REPORT OF THE MEDICAL OFFICER OF
HEALTH FOR THE YEAR 1941.

1.—Statistics and Social Conditions of the Area.

Area in acres	818
Population—Census, 1931	15,987
Estimated, Mid 1941	17,880
No. of inhabited houses (Census, 1931)	3,464
„ „ „ on Rate Books, Dec., 1941	5,158
Rateable value	£109,955
General Rate. 1940/41	14/-
Sum represented by a penny rate	£417

There is no special report to make on the influence of any particular occupation on public health.

UNEMPLOYMENT.—There are no separate figures at the Labour Exchange as to the extent of the unemployment in the district.

BIRTHS.

The number of children born in the district during 1941 was 355; 185 males and 170 females. This gives a Birth Rate of 19·8.

DEATHS.

The total number of Deaths during the year 1941 was 267; 140 males and 127 females. This gives a Death Rate of 14·9. 127 Deaths of Litherland residents occurred outside the district.

INFANTILE MORTALITY.

During the year 37 children died who, at the time of their death, had not reached the age of one year. This gives an Infantile Mortality Rate of 109 per 1,000 births.

ZYMOTIC DEATHS.

During the year, there were 3 deaths from Whooping Cough, 1 death from Diphtheria, and 1 death from Cerebro-Spinal Fever. This gives a Zymotic Death Rate of 0·27.

There were 5 deaths from Diarrhæal Diseases under the age of two years.

2.—General Provision of Health Services for the Area.

HOSPITALS.

There are no Hospitals in the district, but the Council have agreements with the County Borough of Bootle for infectious disease.

SMALLPOX.

Cases are removed under the above agreement to Liverpool, a retaining fee of £2 per 1,000 of population being paid.

The OTHER INFECTIOUS DISEASES are removed to the City of Liverpool and West Lancs. Infectious Disease Hospitals, no retaining fee being paid. The patients are not required to contribute towards the cost of treatment, the accommodation is not limited, therefore quite sufficient.

No action has been taken or advised with the object of securing that the Hospital accommodation is utilised to the best extent, or to shorten the period of stay of uncomplicated cases of Scarlet Fever. Cases have been treated at home where there have been facilities for isolation and suitable nursing.

No new methods have been adopted for the selection of individual cases for which admission to Hospitals is most imperative, nor any new decision as to the admission of cases of diseases such as Measles or Whooping Cough.

TUBERCULOSIS.

This work is administered by the Lancashire County Council, the Tuberculosis Dispensary being situated at "Ellesmere," Crosby Road North, Waterloo.

MATERNITY.

There is no Maternity Hospital in the district, but the Liverpool and Bootle Hospitals are available.

MIDWIVES.

There are three Midwives on the County Council Register and practising in the district. There are no Health Visitors, Nurses or Midwives employed by or assisted by the Local Authority.

GENERAL MEDICAL. GENERAL SURGICAL.

These cases are removed to the General Hospitals of Liverpool, Bootle and Waterloo.

CHILDREN.

The above Hospitals are used, also the Liverpool Children's Hospital.

VENEREAL DISEASES.

Patients make their own arrangements with the Liverpool Voluntary Hospitals.

There are no Poor Law or other Institutions in the district.

MATERNITY MORTALITY.

No special arrangements have been made for the investigation of maternal deaths, and cases of Puerperal Fever or Puerperal Pyrexia; this work is carried out by the Lancashire County Council.

AMBULANCE FACILITIES.

(a) For infectious diseases the Motor Ambulances of the City of Liverpool and West Lancs. Infectious Disease Hospitals.

(b) For non-infectious cases, accident and maternity cases the Motor Ambulances of :—Bootle General Hospital, Waterloo General Hospital, Lancashire Public Assistance Committees, Merseyside Hospitals (1d. in the £ Subscribers) Ambulance, and Police, and are quite satisfactory.

CLINIC AND TREATMENT CENTRES.

This work is administered by the Lancashire County Council. The Clinic is situated at 32 Linacre Road, Litherland, and provides for :—

MATERNITY AND CHILD WELFARE.

Consultation and treatment.

SCHOOL CLINIC.

Dental, orthopædic and minor ailments.

The times of opening are as follows :—

Monday	9.30 a.m. to 12 noon;	2 to 4 p.m.
Tuesday	10.0 a.m. to 12 noon;	2 to 4 p.m.
Wednesday	9.30 a.m. to 12 noon;	2 to 4 p.m.
Thursday	9.15 a.m. to 12.15 p.m;	2 to 4 p.m.
Friday	9.0 a.m. to 12 noon.	

There is no Day Nursery, Artificial Light Clinic; or Institutional provision for unmarried mothers, illegitimate infants, or homeless children in the district.

PROFESSIONAL NURSING IN THE HOME.

Two District Nurses (Litherland District Nursing Association) visits on request of the Medical Practitioners by arrangement with the District Nursing Association. There is no financial obligation to the Council.

The Local Authority contributes to the Merseyside Hospitals (1d. in the £ Scheme) in connection with the Council employees, also to the Bootle General Hospital and the Waterloo General Hospital.

HEALTH EDUCATION.

Health Posters have been displayed, and frequently changed, on the late Empire Marketing Boards.

PATHOLOGICAL AND BACTERIOLOGICAL EXAMINATIONS.

Sputum.—These specimens are sent direct to Lancashire County Council Tuberculosis Dispensary, by Medical Practitioners.

Blood, Throat Swabs, etc.—Sent direct by Medical Practitioners to Dr. H. D. Wright, Liverpool University, Bacteriological Department.

Milk.—Seven samples were submitted to Dr. H. D. Wright, Liverpool University.

3.—Sanitary Circumstances of the Area.

WATER SUPPLY.

The water supply is obtained from the City of Liverpool, the chief source is Lake Vyrnwy in Wales. The water is excellent in quality, and there is a constant supply for all purposes. The number of houses supplied direct from the public mains is approximately 5,155. There has been no analysis during the year.

DRAINAGE AND SEWAGE.

The sewage (which is dealt with on the combined system) is discharged without treatment into the River Mersey.

RIVERS AND STREAMS.

No action has been necessary to check pollution of rivers and streams and no new works have been established to cause pollution.

Closet Accommodation at end of 1941 :—

Privy Middens—

No. of Middens	One.
No. of Closets attached to these Middens	One.
No. of Pail Closets	Nil.
No. of Houses with Fresh Water Closets	5,580
No. of Waste Water Closets	Nil.

SCAVENGING.

This work is carried out by the Sanitary Authority. Refuse is conveyed by motor vehicles to the Council's destructor, situated in Field Lane, Litherland. Orderly carts are used, and litter baskets are fixed at various parts of the district. The method adopted is quite satisfactory.

SANITARY INSPECTIONS DURING 1941.

No. of premises visited	1,426
Defects or Nuisances—					
No. discovered	1,497
No. abated	1,465
No. of Notices served—					
Informal	691
Statutory	7
Legal Proceedings—					

In eight instances legal proceedings were instituted, the Bench imposed fines in two instances. In the remaining cases, summonses were withdrawn on payment of costs, the work having been completed.

OFFICES AND SHOPS ACT, 1934.

No statutory action has been necessary, sanitary defects etc. have been carried out as required.

CAMPING SITES.

There were no licences issued for camping sites during the year.

SWIMMING BATHS AND POOLS.

There are no Swimming Baths or Pools within the district.

ERADICATION OF BED BUGS.

Eighty-six houses were disinfested during the year; 12 Council houses and 74 other houses, by means of spraying with Zaldecide and sulphur candles. Seventeen houses were disinfested for cockroaches, four for fleas and four for ants.

Advice is given to tenants by the Sanitary Inspector on taking up tenancy.

SCHOOLS.

The sanitary condition and the water supply of the schools in the district is satisfactory. The schools have been disinfested after the holidays. There was no closing of the schools as a result of infection during the year.

PREMISES AND OCCUPATIONS WHICH CAN BE CONTROLLED BY
BYE-LAWS OR REGULATIONS.

There are no Common Lodging Houses; Houses let in Lodgings; Tents, Vans or Sheds, or Underground Sleeping Rooms in the district.

OFFENSIVE TRADES.

There are three Tanneries and nine Fish and Chip Potato premises in the district; these are inspected from time to time.

SLAUGHTER-HOUSES.

There is only one Private Slaughter-house in the district, and this is a Registered Slaughter-house.

RAG FLOCK ACTS, 1911 AND 1928.

There are no premises in the district in which Rag Flock is manufactured or sold.

CANAL BOATS.

Number inspected : None.

4.—Housing.**STATISTICS FOR THE YEAR 1941.**

There were no houses built by the Local Authority, other Local Authorities, or by private enterprise during the year.

HOUSING APPLICATION FORMS, 1941.

Housing Application Forms for Council houses are continually being received, both from inside and outside the district.

As a result of enemy action, cases of temporary overcrowding have undoubtedly occurred, but without apparent ill effects on general health, or spread of infectious disease.

5.—Inspection and Supervision of Food.**MILK SUPPLY.**

The Cowsheds, Dairies, and Milk Shops within the district are periodically inspected, and every effort is being made to produce clean healthy milk.

Seven samples were obtained from persons selling milk within the district, and sent to Dr. H. D. Wright for Bacteriological examination. "Tubercle Bacilli" was negative in all samples.

Veterinary inspections are carried out if any animal is suspected, or on a sample of milk showing Tubercle Bacilli.

FOOD AND DRUGS ACT, 1938.

The following samples were obtained in Litherland by the County Sanitary Officer during the year :—

Butter 2, Lard 1, Cooking Fat 2, Margarine 1,
Sugar 1, Rice 1, Pearl Barley 1, Mustard 1,
Ground Ginger 1, Olive Oil 1, Liquid Parafin 1,
Amm. Quinine 1, Seidlitz Powders 1, Saccharin
Tablets 1, Glauber Salts 1, Tincture of Iodine 1,
Custard Powder 1, Cocoa 2.

All these samples were reported genuine.

No proceedings were instituted in respect of any samples obtained in the district.

MEAT AND OTHER FOODS.

The food exposed for sale or prepared in the district has been examined from time to time. The premises and shops have been kept in a cleanly state.

FOOD AND DRUGS ADULTERATION ACT, 1928.

Ten samples of milk were submitted to the County Analyst; nine were reported "Genuine," and one slightly deficient in fat.

BAKEHOUSES.

There are ten Bakehouses in the district; these are in a sanitary condition, clean and well kept; minor repairs have been attended to.

6.—Prevalence of and Control over Infectious Disease.

Two hundred and thirty-three cases of infectious diseases were notified, and eighty-nine cases were removed to Hospital (see Tables of Notifiable Diseases).

DIPHTHERIA IMMUNIZATION.

Immunization against Diphtheria has been undertaken by the Local Authority; this is being done at the County Clinic, Linacre Road, Litherland, by the Medical Officer of Health on Friday afternoon during school time; 400 cases were completed during the year, each receiving two injections of A.P.T.

Immunization against Diphtheria commenced on 17th May, 1935; during this period 2,066 cases have been immunized; 280 notifications of diphtheria have been received, and of these only 16 had previously been inoculated.

The number of deaths from diphtheria during the year was 1, which had not been inoculated.

SCARLET FEVER.

No return cases were discovered during the year.

MALARIA.

There were no cases notified during the year.

PARA-TYPHOID FEVER.

During the months of June, July and August, a small epidemic of para-typhoid occurred in the district. The source of infection appeared to be synthetic cream. There were no deaths. The infecting organism was Para-typhoid B.

CANCER.

There were 17 deaths from Cancer (13 males and 4 females) during the year, as against 25 in 1940. Private Practitioners and Patients make their own arrangements with the Liverpool City Hospitals for Radium Treatment if necessary.

Death rate from Cancer was 0.95.

PREVENTION OF BLINDNESS.

This work is carried out by the Lancashire County Council

TUBERCULOSIS.

No action has been necessary in respect of Tuberculosis employees in the Milk Trade, or to Section 62, Public Health Act 1925, for removal to hospital of infectious persons suffering from Pulmonary Tuberculosis.

GENERAL.

There have been no Primary or Re-Vaccinations carried out by the Medical Officer of Health during the year.

It has not been necessary to close the schools during the year on account of sickness.

There have been no reports made under Article 17 (7) Sanitary Officers (Outside London) Regulations, 1935, which refers to cases of Plague, Cholera, Smallpox, or any serious outbreak of disease in the district.

INFLUENZA.

There was no severe Influenza Epidemic during the year.

There were no other diseases or cases of sickness which required special attention.

WHOOPING COUGH.

As a result of suggestions made by me, Whooping Cough Prophylactic and Curative Serum has been made available to Medical Practitioners free of charge. This has resulted in arresting the progress of this disease and shortening the period of infectivity.

SCABIES.

The number of cases did not appear to increase, and did not approach epidemic proportions.

Disinfection of fomites and houses has been carried out in all cases coming to our notice.

DISINFECTION.

There were 346 rooms in 144 houses disinfected during the year by means of Formaldehyde Vapour and Izal (Sprayed) after Infectious Disease, including Tuberculosis, 384 articles were disinfected at the Council's Disinfector (a Washington Lyons Type) situated in the Council's yard, Field Lane.

There is no arrangement for bathing verminous persons, etc.

Disinfestation has been carried out at eighty-six houses.

Notifiable Diseases, 1941.

Number of cases of Infectious Diseases notified, number of deaths from these diseases, number of cases removed to Hospital, and deaths in Hospital during the year 1941 :—

Death rate from Tuberculosis Respiratory System per 1000 = 0·83.

The rate of non-notified Tuberculosis deaths to total Tuberculosis deaths was three to fifty-five.

There is no evidence of excessive incidence of, or mortality from Tuberculosis in any particular occupation in the district.

No action has been taken or necessary in respect of persons suffering from Pulmonary Tuberculosis, employed in the Milk Trade, or for the compulsory removal to hospital of persons suffering from Tuberculosis.

7.—Maternity and Child Welfare.

The whole of this work is carried out by the Lancashire County Council at 32 Linacre Road, Litherland.

OPHTHALMIA NEONATORUM.

This work is carried out by the Lancashire County Council, there were no cases notified during the year.

I again wish to thank the Sanitary Inspector, Mr. H. Harrison, for his valued assistance, and to tender my thanks to the various members of the Council for considering advice given by me.

Your obedient Servant,

H. G. ST. M. REES,

Medical Officer of Health.

The Urban District Council of Litherland.

ANNUAL REPORT

OF THE

Sanitary Inspector.

1941.

23rd November, 1942.

TO THE CHAIRMAN AND MEMBERS
OF THE HEALTH COMMITTEE.

GENTLEMEN,

I beg to submit the Annual Report of the work executed in the Health Department during the past year, together with the particulars of the nuisances abated and improvements effected thereby.

INSPECTION OF THE DISTRICT, NOTICES SERVED, &c.

During the year 3,251 inspections and re-inspections were made in reference to complaints and housing.

It was necessary in numerous instances, however, to interview and write to the persons concerned, drawing their attention to notices which had not received prompt attention.

There were 691 Preliminary Notices and letters, etc., referring to nuisances and general dilapidations served, and in due course complied with.

In eight instances Abatement Notices were served after which the work was completed to my satisfaction. Legal proceedings were taken in eight instances, the Bench imposed fines in two cases; in the other cases the summonses were withdrawn on payment of costs, the work having been completed.

INSPECTION OF THE FOOD SUPPLY.—The food exposed for sale in the district has been inspected from time to time. Meat shops and food preparing places are inspected periodically. All animals slaughtered in the district are examined.

SLAUGHTER-HOUSES.—There is one “private” slaughter-house within the district, the number of pigs slaughtered and inspected in the Urban District during the year was twenty-seven.

INSPECTION OF MEAT :—

Meat condemned as unfit for human food :—

... 7 cwts. 2 qr. 26 lb.

Five crates of rotten eggs were withdrawn from the shops after inspection.

DAIRIES, COWSHEDS AND MILKSHOPS.—Number of cowkeepers on register, 2; number of milk shops (other than cowkeepers), 9. 12 visits were made during the year. On the whole a fairly high standard of cleanliness is maintained, and the health of the cattle is satisfactory.

Five supplementary licenses were issued to retail:—

- (1) “Tuberculin Tested” Milk (two).
- (2) “Accredited” Milk (two).
- (3) “Pasteurised” Milk (one).

Also one Bottling Licence for “Accredited” Milk was issued.

MILK SAMPLES.—Seven samples were taken for the discovery of Tuberculosis among cattle; these were reported “negative” to the biological test. Ten samples of milk were also taken under the Sale of Food and Drugs (Adulteration) Act, 1928 and Food and Drugs Act, 1938, and nine were reported “genuine,” and one slightly deficient in fat.

There are approximately 28 cows kept in the district.

FISH FRYING SHOPS AND WET FISH SHOPS.—Thirty-nine visits were paid to fish frying shops and wet fish shops, which were maintained in a generally satisfactory condition.

ASHPITS TO BIN SYSTEM.—The approximate number of movable ashbins at present in use in the district is 5,375. There were no conversions during the year.

ERADICATION OF BED BUGS.—Eighty-six houses were disinfested during the year by means of spraying with Zaldecide, and sulphur candles. Clothing and bedding were taken to the Council's Steam Disinfector. The whole of this work is carried out by the Council's workmen.

FLEAS.—Four houses were infested with fleas, seventeen with cockroaches, and four with ants, and were treated with Zaldecide successfully.

RATS AND MICE DESTRUCTION ACT, 1919—63 rats have been destroyed during the year by rat catchers with dogs and ferrets.

In several cases the cause was due to defective drains, and in each case the drains were repaired and the possibility of further infestation removed.

CARAVANS.—There were no caravans in the district during the year.

SUPERVISION OF INFECTIOUS DISEASES.—One hundred and twelve visits were paid to houses where Infectious Diseases had occurred, and the necessary enquiries made into each case, also a sanitary survey was made of the premises, notices served where necessary for various defects, and work carried out.

Notices to strip and cleanse the walls and ceilings, where necessary, were served, and 27 re-visits were paid to ensure that the work was carried out. The schools have been thoroughly disinfested during the year. The head teachers have been notified regarding children attending the schools where infectious disease had occurred, also after disinfection.

SUMMARY OF WORK OF DEPARTMENT

Number of houses inspected	1426
Number of re-inspections to houses	1825
Number of visits and re-visits to factories and workshops ...	59
Number of visits to bakehouses	33
Number of visits to cowsheds, dairies, and milkshops ...	53
Number of preliminary notices served and letters, etc. ...	691
Number of abatement notices served	8
Number of visits to offensive trades	2
Samples of milk submitted for bacteriological examination	7
Samples of milk taken under Sale of Food and Drugs Act	10
Cases of infectious disease visited and reported upon ...	139
Number of houses fumigated	144
Number of rooms fumigated	340
Number of articles fumigated	384
Number of verminous houses disinfested	86
Number of visits to fish frying shops and wet fish shops ...	39
Number of visits to butchers' shops and food preparing places	182
Number of visits to slaughter-house	16
Number of visits to schools	67
Number of visits under Rat and Mice Destruction Act ...	11
Number of visits to stable premises and garages	137
Number of visits re Diphtheria Immunisation	62
Number of visits to Tents, Vans and Sheds	6
Rent books inspected	212

DETAILS OF SANITARY IMPROVEMENTS AND ABATEMENT OF NUISANCES.

Drains tested, repaired or renewed ...	275
Defective w.c. cisterns, pans, traps, water supply, etc. ...	218
Staircases repaired ...	2
Defective water supply to houses, etc., new taps, burst pipes, etc. ...	247
Defective floors in dwelling-houses, etc. ...	38
Offensive accumulations ...	27
New ashbins provided ...	68
Insanitary yard surfaces ...	60
Walls and chimneys pointed and repaired ...	87
Defective eaves, gutters, r.w. pipes, etc. ...	136
New back boilers, storage cisterns and cylinders provided or repaired ...	49
